DESCRIPTION OF THE BOOK 19 NINETEEN : GOD'S SIGNATURE IN NATURE AND SCRIPTURE

Code 19 provides a powerful evidence for God's existence, as expected, envisioned or demanded by some philosophers and scientists, such as Galileo Galilei, Isaac Newton, Gottfried Leibniz, David Hume, Paul Dirac, and Carl Sagan. Code 19 was hidden in the 74th chapter of the Quran The Hidden, for 19x74 (1406) lunar years, and was discovered in 1974 by my colleague, Dr. Rashad Khalifa, an Egyptian-American biochemist. The number 19 has been a major controversy since its discovery and the number has realized all its assigned functions according to the prophetic verses of Chapter 74. Because of the implications of his discovery of the Secret, as well as his strong criticism of the sectarian teachings based on Hadith and Sunna, Rashad was declared a heretic/apostate by leading Sunni scholars from 38 countries who held an emergency conference in Saudi Arabia in 1989 to discuss the Salman Rushdie controversy. While Rushdie survived, Rashad was assassinated in this Masjid in January 31, 1990, by a terrorist group linked to al-Qaeda. The author of this book also received similar fatwa, yet he has escaped several assassination attempts, so far. Code 19, which was also discovered in the original portions of the Old Testament by Judah ben Samuel in 11th century, is simple to understand but impossible to imitate. Code 19 has little to do with numerology, since its literary-numerical (LitNu) pattern can be verified or falsified through scientific inquiry. It is radically different from the pattern demonstrated in The Bible Code, which has no statistical value. Unlike regular metaphysical or paranormal claims, Code 19 can be verified or falsified by virtually anyone, since the Arabic version of the Quran is available everywhere. Besides, for the most part, the reader does not need to know Arabic but only two eyes to see, an ability to count, a critical mind, and an open mind and heart to witness extraordinary signs as the fulfillment of a great prophecy. This discovery has created a paradigm change among those who witness it: instead of joining a religious bandwagon by blindly believing a holy story or hearsay, we must be critical thinkers; we must question everything and seek truth through knowledge. The code suggests a "Copernican revolution" in theology of religions. Instead of Krishna-centered, or Jesus-centered, or Muhammad-centered religions we must turn to the original center, to the God-centered model. The message of rational monotheism has sparked an ongoing controversy in countries with Muslim-majority populations, e.g., Egypt,

Pakistan, Malaysia, Saudi Arabia, Turkey, etc. Internet forums are filled with heated debates regarding this code. The improbability and impossibility of the numerical structure of the Quran being produced by a medieval Arab genius becomes evident when we consider the following factors: It includes simple elements of the Quran and goes deeper to an interlocking system of complex numerical patterns and relationships. It involves not only frequencies of letters and words but also the numerical values of letters. It involves not only an intricate numerical pattern but also a huge set of data consisting of units with multiple functions, such as letters that are also digits, words that are also numbers. The numerical aspect of the Quran were not known by the adherents of the Quran until late 1960s and especially, 1974. The literary aspect of the Quran has received praises from many literary giants throughout centuries. The scientific accuracy of Quranic statements on various fields has been immaculate. Muhammad was one of the busiest and greatest social and political reformists in human history. The timing of the discovery of the code is precise and prophetic. A series of prophetic events regarding the code has been fulfilled.

2 Timothy 3:16-17 [16] All Scripture is God-breathed and is useful for teaching, rebuking, correcting and training in righteousness, [17] so that the man of God may be thoroughly equipped for every good work. The book purports to give a mathematical code of 19 to the Quran and nature, as stated by its title. However, in order to get a multiple of 19 from the chapters and verses of the Quran, one different method after another is employed; hardly scientific. 19 NINETEEN: God's Signature in Nature and Scripture: Edip Yuksel. 19 NINETEEN: God's Signature in Nature and Scripture [Edip Yuksel] on. on orders over \$25—or get FREE Two-Day Shipping with Amazon Prime. The Bible clearly teaches that most anger is sinful, but that some anger is righteous (Eph. 4:26, 31). Jesus got angry at the hardness of heart of the Pharisees (Mark 3:5), but He did not sin. If our anger is directed against the sinful treatment of others and if we allow it to move us toward constructive means to try to resolve the problem, it. King David, the author of Psalm 19, loved to meditate on the truths revealed in God's Word, but he never lost the thrill of studying God's creation. Although not equal to the Bible, the creation gives us a visual display of God's wonderful character. Finally, the Bible says in essence, "seek and you will find." That is, those who seek the light they have through nature, which is not sufficient for salvation, will get the light they need for salvation. The expression "the judgment seat of Christ" in the English Bible has tended to cause some to draw the wrong conclusion about the nature and purpose of this evaluation. A common misconception which arises from this English translation is that God will mete out a just retribution for sins in the believer's life, and some measure of. written by Emma Arendoski December 8, 2015 . Hi, loves! Emma here. Have you picked out Something Blue for your wedding day yet? The old adage — Something Old, Something New, Something Borrowed, and Something Blue (and a Sixpence in Your Shoe) — is said to bring good luck to the bride. EDIP YUKSEL, J.D., American-Turkish-Kurdish author and activist, was born in Turkey in 1957 the son of late Sadreddin Yuksel, a prominent Sunni scholar.
