DESCRIPTION OF THE BOOK BARGAIN FEVER

Almost half of everything sold in America is listed at some kind of promotional price. People don't only want a deep discount, they expect it-and won't settle for anything less. In this playful, deeply researched book, journalist Mark Ellwood takes a trip into this new landscape. From the floor of upscale department store Serpentine Goodman to the bustling aisles of a Turkish bazaar, from the outlet Disneyworld of rural Pennsylvania to a town in Florida that can claim to be couponing's spiritual capital, Ellwood shows how some people are, quite literally, born to be bargain junkies thanks to a quirk of their DNA. He also uncovers the dark side of discounting- the sales-driven sleights of hand that sellers employ to hoodwink unsuspecting buyers. Bargain Fever is a manual for thriving in this new era, when deal hunting has gone from being a sign of indigence to one of intelligence. There's never been a better time to be a buyer-at least if you know how the game works. 'This book is a bargain hunter's bible.' Michael Tonello, author of Bringing Home the Birkin 'Bargain Fever is just as fierce, funny, tenacious, and tantalizing as its author. I love this book.' Kelly Cutrone, founder, People's Revolution, and author of Normal Gets You Nowhere 'A book after my own heart. Bargain Fever lifts the veils off the sales, ensuring even more that you'll never pay retail again.' Carmen Wong Ulrich, financial contributor, CBS This Morning, and author of Generation Debt 'Highly informative and entertaining.' Booklist
