DESCRIPTION OF THE BOOK BEST BLOGS OF THE WEB

This book sprang from a simple and familiar problem: you hear some amazing blog that is hilariously funny but you can't remember the name. You sit in front of your computer and you type in best blog and get a depressing raft of suggestions that have little to do with what you want. Yet, you know that out there among a sea of nutters are those blogs that are read like newspapers for the latest news and for fun - yet they are free. For those who are complete novice, it will limit the overwhelming amount of choice to the select few that are setting emails in motion in Britain and all over the world. This book is the concrete expression of the author's passion for blogs. They're written so that someone who has never read a word of the blog can learn enough about it to make an informed choice whether it is for them or not. And it's written so those who are hooked on one blog or another will find something new too.
