DESCRIPTION OF THE BOOK HELPING HANDS

What is a helping hand? Do you know where to find a helping hand? You might be surprised at the answer! Read this fun book and find out about helping hands. Ask yourself if helping hands are really happy hands. Penelope Dyan is back again to explore a basic truth with her young readers, and the extra large print helps little eyes to better see the words inside this book. Practice some reading skills as Dyan repeats certain words so her readers can see and remember. Try to remember the words you see on one page and use the pictures on the other page to help you put the words and the pictures together! Dyan is an award winning author, an attorney and a former K-12 teacher who wants all children to be successful and to feel good about themselves; because if children feel good about themselves inside, then there will be nothing on the outside that can daunt them. When Dyan was a teacher, one of the other teachers said, "Everything in life isn't fun," to which she replied, "When you are a kid it is!" And this is the reason she writes these books. Dyan believes both reading and learning absolutely need to be fun! And with Penelope Dyan, books they are!
