DESCRIPTION OF THE BOOK INTELLECTUAL PROPERTY LAW

Bently & Sherman's Intellectual Property Law is the definitive textbook on the subject. The authors' all-embracing approach not only clearly sets out the law in relation to copyright, patents, trade marks, passing off, and confidentiality, but also takes account of a wide range of academic opinion enabling readers to explore and make informed judgements about key principles. The particularly clear and lively writing style ensures that even the most complex areas are lucid and comprehensible.

INTELLECTUAL PROPERTY - WIKIPEDIA

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect, and primarily encompasses copyrights, patents, and trademarks. The law of intellectual property is commonly understood as providing an incentive to authors and inventors to produce works for the benefit of the public by regulating the public's use of such works in order to ensure that authors and inventors are compensated for their efforts. A wide body of federal and state laws protects creative property such as writing, music, drawings, paintings, photography, and films. Collectively, this body of law is called "intellectual property." Intellectual property is the area of law that deals with protecting the rights of those who create original works. It covers everything from original plays and novels to inventions and company identification marks. The American Intellectual Property Law Association (AIPLA) is a 16,000 member, national bar association constituted primarily of intellectual property lawyers in private & corporate practice, in government service, and in the academic community. Intellectual property is a property right that can be protected under federal and state law, including copyrightable works, ideas, discoveries, and inventions. The term intellectual property relates to intangible property such as patents, trademarks, copyrights, and trade secrets. Intellectual property is an organization's most valuable asset. New developments in science and technology have created the need for lawyers with specialized backgrounds in these areas to help protect the intellectual capital of businesses, authors, inventors, musicians, and other owners of creative works. The USPTO leads efforts to develop and strengthen both domestic and international intellectual property protection. The USPTO advises the President -through the Secretary of Commerce- and all federal agencies on national and international intellectual property policy issues, including IP protection in other countries.
