DESCRIPTION OF THE BOOK SUSTAINABLE SUSHI

Sustainable Sushi answers the question on the minds of millions who enjoy eating fish: how can we indulge the desire to dine well while keeping our health and the health of the oceans in mind? With painstaking research found in no other book on the market to date, this pocket-size guide profiles dozens of the most common fish and shellfish one might encounter at a sushi bar, details where and how they are caught, whether or not they are safe, and how they figure in the current fishery crisis. Written by a fishery and sustainability expert who was himself netted long ago by the allure of Japanese cuisine, Sustainable Sushi offers simple, clear explanations of such topics as mercury and PCB levels, overfishing, and species extinction. Attractively designed and featuring quick facts, maps, photos, and illustrations, the book was written for both the novice and the seasoned sushi fan. In a storm of seafood shortages and frightening statistics, Sustainable Sushi shows readers how to enjoy the sushi bar without guilt. Sustainable Sushi official website: <http://www.sustainablesushi.net/>

SUSTAINABLE SUSHI - WIKIPEDIA

Sustainable sushi is sushi made from fished or farmed sources that can be maintained or whose future production does not significantly jeopardize the ecosystems from which it is acquired. At a sushi bar you have a unique opportunity to talk with your chef about the food you're about to eat and let her know you care about sustainable seafood. Ask if the seafood is farmed or wild, how it was caught and where it's from. Those in the sushi cognoscenti already know that the only appropriate way to open a column about the now-ubiquitous Japanese cuisine is with the equally ubiquitous greeting shouted by restaurant. Sustainable Sushi " If you do not interfere with the busy season in the fields, then there will be more grain than people can eat; if you do not allow nets with too fine a mesh to be used in large ponds, then there will be more fish and turtles than one can eat. Harney Sushi is proud to offer our Southern California based, award-winning, sustainable sushi cuisine since 2001. We use only the freshest ingredients! Providing sustainable sushi Carlsbad. Sustainable Sushi—Hold the Sanctimony—at Mayanoki In the East Village, the chef Jeff Miller serves up lionfish from Florida and shrimp from the Hudson Valley as part of his inventive.
