DESCRIPTION OF THE BOOK THE MAGIC MOUNTAIN

With this dizzyingly rich novel of ideas, Thomas Mann rose to the front ranks of the great modern novelists, winning the Nobel Prize for Literature in 1929. The Magic Mountain takes place in an exclusive tuberculosis sanatorium in the Swiss Alps—a community devoted to sickness that serves as a fictional microcosm for Europe in the days before the First World War. To this hermetic and otherworldly realm comes Hans Castorp, an "ordinary young man" who arrives for a short visit and ends up staying for seven years, during which he succumbs both to the lure of eros and to the intoxication of ideas.

The Magic Mountain, as well as being a German myth, is a parody of the Bildungsroman, in which a young man goes out into the world, and discovers his nature through his encounters. The two talkative opponents are pedagogues, representing visions of human nature and the world which were tested in Thomas Mann himself during the 1914-1918 war.
