DESCRIPTION OF THE BOOK TYIN TEGNESTUE ARCHITECTS

MUSAC (The Institute of Contemporary Arts in Castilla) presents this illustrated monograph celebrating the work of the Norwegian design studio TYIN Tegnestue, founded by Yashar Hanstad and Andreas Gjertsen. These two young architects have travelled the world in search of meaning and possibilities for the future of design, taking them to war zones of on the Thai-Burmese border, the slums of Bangkok and the jungles of Sumatra. After several years of extensive travel, they asked themselves what have they learned - working outside the confines of conventional architecture, in the backdrop of different cultures and languages - and decided to share the processes, core values and methods applied in each of their projects. This book gathers contributions from five professionals from the world of architecture and design Christiane Burklein (Germany), Kristine Guzman (Spain), Lisbet Harboe (Norway), Einar Bjarki Malmquist (Iceland) and Hans Skotte (Norway), to delve into the TYIN style of architecture that reevaluates the materials, structure, detail and the human factor in modern architectural design.

TYIN TEGNESTUE ARCHITECTS

Klong Toey Community Lantern. Cassia Co-op Training Centre. Soe Ker Tie House The building sits amidst marshland, sea-adjacent rock and scattered pine- and juniper-vegetation. An important consideration in the project was to avoid interfering with this sensitive surrounding terrain. TYIN tegnestue Architects are a recently graduated firm that centre on a philosophy of an architecture of necessity. They have mainly completed work in the humanitarian field abroad, but their core thinking lies in the adaption of situations, and this can be implemented practically anywhere in the world. TYIN tegnestue Architects are a recently graduated firm that centre on a philosophy of an architecture of necessity. They have mainly completed work in the humanitarian field abroad, but their core thinking lies in the adaption of situations, and this can be implemented practically anywhere in the world. TYIN tegnestue architects are known for their small-scale built projects in underprivileged areas around the world, but you might not know just how open this firm is about sharing their work.
