DESCRIPTION OF THE BOOK WOOD-FIRED CERAMICS : 100 CONTEMPORARY ARTISTS

With over 500 brilliant colour photographs, this book highlights the work of 100 innovative ceramic artists who still use the labour intensive, and sometimes unpredictable, process of wood-firing. Throughout the book, artists share several examples of their work, ranging from small pots to monumental installations, as well as their stories about their inspiration, influences, and techniques. The artists also relate how they have adapted various methods of wood-firing to their own needs and environments, using fast-fire, Noborigama, Anagama, and other kilns. Kiln drawings, information about firing logs, clay, glaze and slip formulas, and wood firing resources are also included. The artwork is representative of the diversity of styles, from glazing techniques to the often unique creations based on placement within the various kilns. This book is an essential for all who appreciate or practice ceramic art today.

These innovative artists succeeded in uniting modern art with the traditional stoneware, by highlighting its strength, earthy colors and textures with revolutionary shapes and glazes. This inspired a liberating approach to the ceramic arts that has continued to develop throughout the 50's and 60's and beyond. ABOUT WOOD-FIRING Wood-firing is a traditional process that was first introduced to Japan from Korea in the fifth century. The anagama (single-chambered kiln, wood-fired) allowed temperatures to exceed the 700 degrees previously gotten from bonfires, pit firing, etc. A Daily Publication for Contemporary Ceramic Art + Design.
