DESCRIPTION OF THE BOOK WOODEN TOOLS FOR KIDS

Wooden Tools For Kids is a collection of easy to make wooden toy tools for children. They encourage the imagination, and allow kids to have fun at the same time. There are instructions for over twenty tools, as well as a tool box to carry them. I made this exact set for my son, and he loves to play with every one of them. The complete set is made entirely out of wood, without any modern metal fasteners. All of the pieces are glued and doweled together, so they are strong and secure. The finish is food safe and oil based, giving the tools a warm traditional look that is very appealing. With standard shop tools, the complete set is easy to make, and can inspire the imagination of any child. Who knows, it may even lead them to a lifelong love of woodworking. Happy building.
